Cleaning Doctor[®]
The committed cleaning professionals

CLEANING DOCTOR offers you a business that has all the reasons why customers will call you first and use you first. Franchisor William Little has over the past nine years launched 49 successful franchise outlets.

With multi-vehicle territories, each with up to a quarter of a million population – plus businesses, Cleaning Doctor is offering four franchise options: (A) Cleaning Doctor Carpet, Curtain & Upholstery Cleaning, (B) Floor Restoration and Contract Cleaning Services, (C) External Cleaning and Maintenance Services and (D) The Clean Team Home Cleaning Services

Each franchisee receives a state-of-the-art equipment package, vibrant vehicle graphics, residential and in-territory training, fast-track marketing, an energetic launch programme, and all rounded off with ongoing support that is the envy of the industry. Franchisees enjoy the benefits of owning a business that they can operate from home and which has steady cash flow from week one. Two or more vehicles are within franchisees reach within three years, but faster growth is encouraged.

If you want to be the owner of a business that will be at the forefront of specialist cleaning services in your local territory you should seriously investigate these franchise opportunities.

Home Cleaning Services

Investment Requirement: £15,000 - £24,500
